

Dear Colleagues,

On the new status of the IAHS

I wish to express my objection concerning the ipso facto procedure regarding the corresponding members .
In reality this procedure violates the traditions , and it would lead to the degradation of our institution.

After all the IAHS it will be transform to a common association .

The most important Academies including the Accademia of Lincei , L' Academie des Sciences in Paris as well as the Russian Academy of Sciences and the Academy of Athens preserve the status of the corresponding members.

With my best regards
Professor Christine Phili
